## OBJECTIVE

---

This resume is specifically for Web Design/ Development and programming work. Since 1990 my work in south Florida and in Oklahoma has required responsibility and safety, taking care of customer service, homes, facilities, keys, and schedules. I am also an artist specializing in refined raku. I have an eye for design, meticulous coding skills and an extensive university education in E-Commerce and Computer Science. Whether you are creating software or need someone to create or take care of your Website, I may be the one you've been looking for. Reference letters are available by request.
